TO WHOM IT MAY CONCERN:

I am honored to submit this letter of recommendation in behalf of Fitzpatrick Architects located in Tyler, Texas. We are especially familiar with the performance of Trey Greer and Steve Fitzpatrick.

The business relationship between Henderson ISD and Fitzpatrick Architects has been very good during all of our experience with them. Some of the projects they have performed for us include:

- serving as Owner Agent for the District during design and construction of an 184,000 square foot facility which currently house two campuses containing grades PK-3 with approximately 1,100 students. This facility was constructed by Berry & Clay Construction at a cost of \$23.1 million.
- serving as project leaders in conducting a comprehensive facility needs assessment and development of a long-range facility master plan for the District;
- serving as design architects for a \$2 million expansion at our High School containing state of the art science and technology labs and math classrooms complete with the latest technology; construction was performed by RPR.
- serving as design architects for a current \$5.2 million project including a dressing room addition to our competition gymnasium and a separate training and conditioning center complete with 90 yard indoor turf field and practice center; construction here also by Berry & Clay.

We have the utmost confidence that Steve and Trey, along with others in their firm, will prove just as successful in working with your special project. They have been great to work with and have gone above and beyond every expectation that Henderson ISD could imagine. I trust you will give them the opportunity to perform their excellent services in your behalf. Please feel free to contact me personally for any additional information that might be helpful.

Thank you in advance for your consideration.

Sincerely,

Bobby Brown, Superintendent
