To Whom It May Concern:

I am writing this letter of recommendation for Fitzpatrick Architects to be strongly considered as your next project architect. The East Texas Food Bank recently completed its More Space More Meals expansion project and had great experience with Fitzpatrick Architects as our partners.

Brandy Zeigler did an outstanding job as our lead architect and delivered a beautiful design that will serve us well for many years. She and her team worked diligently to understand our work and ensure that the new facilities were designed to function smoothly and meet the growing needs of our organization for the future. Brandy and her team also worked hard to ensure that our project was completed within budget. We were delighted that so much could be accomplished with a modest investment of approximately \$3 million.

We are proud of our new facilities which have been receiving rave reviews from our volunteers, staff and the general public. This is one of the few projects that I have been involved with that actually looked bigger and better than the renderings.

We highly recommend Fitzpatrick Architects as your project partner. Please feel free to contact me with any questions you may have. We would love to give you a tour of our new facilities.

Sincerely,

Dennis J. Cullinane
Chief Executive Officer
